ESAT USA seeking interns

The Ethiopian Satellite Television is an emergent media platform set up with a mission to amplify the voices of the people of Ethiopia. Since its launch a year ago as the only independent satellite television, ESAT has been able to create a powerful media platform despite the relentless efforts of the Meles regime to disrupt its operations through illegal jamming and other forms of interference.

With a view to accomplishing its goals with ingenuity and focus, ESAT has created a few positions for enthusiast young interns to work its USA branch located in Alexandria, VA.

Applicants must be committed to press freedom, human rights, democracy, and independent media development in Ethiopia. Interns need to be willing to devote at least 8 hours a week.

Desirable qualifications:

- College students or graduates in journalism, international relations, business, marketing or liberal arts and interested in gaining work experience.
- Skilled in video editing, writing, communications, multimedia, online publishing.
- Maintain strong work ethics and detail-oriented.

If you are interested in interning at ESAT, please send a cover letter and a copy of your resume to esatusa@ethsat.com by June 15, 2011.
